Section II

	Section II					
Hours Required	Hours Obtained	Mandatory Core Content	Date Completed			
•		Airway, Breathing and Cardiology				
		Provide ventilatory support for a patient				
0		Attempt to resuscitate a patient in cardiac arrest				
8		Provide care to a patient experiencing cardiovascular compromise				
		Provide post resuscitation care to a cardiac arrest patient				
		Medical Emergencies				
		Assess and provide care to a patient experiencing an allergic reaction				
3		Assess a patient with possible overdose				
		Assess and provide care to a near-drowning patient				
		Trauma				
		Perform a rapid trauma assessment				
5		Assess a patient with head injury				
		Assess and provide care to a patient with suspected spinal injury				
		Provide care to a patient with a chest injury				
		Provide care to a patient with an open abdominal injury				
		Provide care to a patient with an open abdominal injury  Provide care to a patient with shock/hypoperfushion				
		Obstetrics and Pediatrics				
8		Assess and provide care to an infant or child with cardiac arrest				
		Assess and provide care to an infant or child with respiratory distress	1			
		Assess and provide care to an infant or child with shock/hypoperfusion				
		Assess and provide care to an infant or child with trauma	<b>D</b> 4			
Hours	Hours	Flexible Core Content	Date			
Required	Obtained		Completed			
		Airway, Breathing and Cardiology				
		Assess and provide care for respiratory distress in an adult patient				
0		Preform techniques to assure a patent airway				
8		Use oxygen delivery system components				
		Assess and provide care to a patient experiencing non-traumatic chest				
		pain/discomfort				
		Medical Emergencies	•			
	_	Assess and provide care to a patient with an altered mental status				
		Assess and provide care to a patient with a history of dishetes				
		Assess and provide care to a patient with a history of diabetes				
5		Assess and provide care to a patient with a history of diabetes Assess and provide care to a patient experiencing a seizure				
5		Assess and provide care to a patient with a history of diabetes Assess and provide care to a patient experiencing a seizure Assess and provide care to a patient exposed to heat or cold				
5		Assess and provide care to a patient with a history of diabetes Assess and provide care to a patient experiencing a seizure Assess and provide care to a patient exposed to heat or cold Assess and provide care to a patient experiencing a behavioral problem				
5		Assess and provide care to a patient with a history of diabetes Assess and provide care to a patient experiencing a seizure Assess and provide care to a patient exposed to heat or cold Assess and provide care to a patient experiencing a behavioral problem Assess and provide care to a patient with a suspected communicable				
5		Assess and provide care to a patient with a history of diabetes  Assess and provide care to a patient experiencing a seizure  Assess and provide care to a patient exposed to heat or cold  Assess and provide care to a patient experiencing a behavioral problem  Assess and provide care to a patient with a suspected communicable disease				
		Assess and provide care to a patient with a history of diabetes Assess and provide care to a patient experiencing a seizure Assess and provide care to a patient exposed to heat or cold Assess and provide care to a patient experiencing a behavioral problem Assess and provide care to a patient with a suspected communicable disease  Trauma				
5		Assess and provide care to a patient with a history of diabetes Assess and provide care to a patient experiencing a seizure Assess and provide care to a patient exposed to heat or cold Assess and provide care to a patient experiencing a behavioral problem Assess and provide care to a patient with a suspected communicable disease  Trauma  Provide care of patient with a painful, swollen, deformed extremity				
		Assess and provide care to a patient with a history of diabetes Assess and provide care to a patient experiencing a seizure Assess and provide care to a patient exposed to heat or cold Assess and provide care to a patient experiencing a behavioral problem Assess and provide care to a patient with a suspected communicable disease  Trauma  Provide care of patient with a painful, swollen, deformed extremity Assess and provide care to a patient with a burn injury				
		Assess and provide care to a patient with a history of diabetes Assess and provide care to a patient experiencing a seizure Assess and provide care to a patient exposed to heat or cold Assess and provide care to a patient experiencing a behavioral problem Assess and provide care to a patient with a suspected communicable disease  Trauma  Provide care of patient with a painful, swollen, deformed extremity Assess and provide care to a patient with a burn injury  Obstetrics and Pediatrics				
		Assess and provide care to a patient with a history of diabetes Assess and provide care to a patient experiencing a seizure Assess and provide care to a patient exposed to heat or cold Assess and provide care to a patient experiencing a behavioral problem Assess and provide care to a patient with a suspected communicable disease  Trauma  Provide care of patient with a painful, swollen, deformed extremity Assess and provide care to a patient with a burn injury  Obstetrics and Pediatrics  Assess and provide care to an infant or child with suspected abuse or				
		Assess and provide care to a patient with a history of diabetes Assess and provide care to a patient experiencing a seizure Assess and provide care to a patient exposed to heat or cold Assess and provide care to a patient experiencing a behavioral problem Assess and provide care to a patient with a suspected communicable disease  Trauma  Provide care of patient with a painful, swollen, deformed extremity Assess and provide care to a patient with a burn injury  Obstetrics and Pediatrics  Assess and provide care to an infant or child with suspected abuse or neglect				
1		Assess and provide care to a patient with a history of diabetes Assess and provide care to a patient experiencing a seizure Assess and provide care to a patient exposed to heat or cold Assess and provide care to a patient experiencing a behavioral problem Assess and provide care to a patient with a suspected communicable disease  Trauma  Provide care of patient with a painful, swollen, deformed extremity Assess and provide care to a patient with a burn injury  Obstetrics and Pediatrics  Assess and provide care to an infant or child with suspected abuse or neglect Assess and provide care to an infant or child with a fever				
1		Assess and provide care to a patient with a history of diabetes Assess and provide care to a patient experiencing a seizure Assess and provide care to a patient exposed to heat or cold Assess and provide care to a patient experiencing a behavioral problem Assess and provide care to a patient with a suspected communicable disease  Trauma  Provide care of patient with a painful, swollen, deformed extremity Assess and provide care to a patient with a burn injury  Obstetrics and Pediatrics  Assess and provide care to an infant or child with suspected abuse or neglect Assess and provide care to an infant or child with a fever Assess and provide care for the obstetric patient				
1		Assess and provide care to a patient with a history of diabetes  Assess and provide care to a patient experiencing a seizure  Assess and provide care to a patient exposed to heat or cold  Assess and provide care to a patient experiencing a behavioral problem  Assess and provide care to a patient with a suspected communicable disease  Trauma  Provide care of patient with a painful, swollen, deformed extremity  Assess and provide care to a patient with a burn injury  Obstetrics and Pediatrics  Assess and provide care to an infant or child with suspected abuse or neglect  Assess and provide care to an infant or child with a fever  Assess and provide care for the obstetric patient  Provide care to the newborn				
1		Assess and provide care to a patient with a history of diabetes Assess and provide care to a patient experiencing a seizure Assess and provide care to a patient exposed to heat or cold Assess and provide care to a patient experiencing a behavioral problem Assess and provide care to a patient with a suspected communicable disease  Trauma  Provide care of patient with a painful, swollen, deformed extremity Assess and provide care to a patient with a burn injury  Obstetrics and Pediatrics  Assess and provide care to an infant or child with suspected abuse or neglect Assess and provide care to an infant or child with a fever Assess and provide care for the obstetric patient Provide care to the newborn Provide care to the mother immediately following delivery of a newborn				
1		Assess and provide care to a patient with a history of diabetes Assess and provide care to a patient experiencing a seizure Assess and provide care to a patient exposed to heat or cold Assess and provide care to a patient experiencing a behavioral problem Assess and provide care to a patient with a suspected communicable disease  Trauma  Provide care of patient with a painful, swollen, deformed extremity Assess and provide care to a patient with a burn injury  Obstetrics and Pediatrics  Assess and provide care to an infant or child with suspected abuse or neglect Assess and provide care to an infant or child with a fever Assess and provide care for the obstetric patient Provide care to the newborn Provide care to the mother immediately following delivery of a newborn  Operational Tasks				
1		Assess and provide care to a patient with a history of diabetes Assess and provide care to a patient experiencing a seizure Assess and provide care to a patient exposed to heat or cold Assess and provide care to a patient experiencing a behavioral problem Assess and provide care to a patient with a suspected communicable disease  Trauma  Provide care of patient with a painful, swollen, deformed extremity Assess and provide care to a patient with a burn injury  Obstetrics and Pediatrics  Assess and provide care to an infant or child with suspected abuse or neglect Assess and provide care to an infant or child with a fever Assess and provide care for the obstetric patient Provide care to the newborn  Provide care to the mother immediately following delivery of a newborn  Operational Tasks  Use body mechanics when lifting and moving a patient				
8		Assess and provide care to a patient with a history of diabetes Assess and provide care to a patient experiencing a seizure Assess and provide care to a patient exposed to heat or cold Assess and provide care to a patient experiencing a behavioral problem Assess and provide care to a patient with a suspected communicable disease  Trauma  Provide care of patient with a painful, swollen, deformed extremity Assess and provide care to a patient with a burn injury  Obstetrics and Pediatrics  Assess and provide care to an infant or child with suspected abuse or neglect Assess and provide care to an infant or child with a fever Assess and provide care for the obstetric patient Provide care to the newborn Provide care to the mother immediately following delivery of a newborn  Operational Tasks
